A wrap fund is a basket of different collective investment schemes wrapped as a single investment portfolio. Changes in the fund selection could constitute a capital gains tax event on capital gains made where not governed by the Pension Funds legislation. There is no joint ownership among investors and individual ownership of the participatory interests in the collective investment schemes can be transparently demonstrated at all times. The wrap fund investment is administered and facilitated by a linked investment service provider (LISP) i.e. an Administrative FSP. The Administrative FSP has service level agreements in place with the management company of each collective investment scheme according to which the repurchase of participatory interests in collective investment schemes comprising wrap funds are guaranteed.
